Why Does the School Collect Personal Information & What Do We Do With It?

17. We collect Personal Data to help the School run properly, safely and to let others know what we do here.
18. In respect of pupils and their parents, the School commonly uses Personal Data for:
 - 18.1 ensuring that the School provides a safe and secure educational environment conducted outside the State system, safeguarding and promoting the welfare of all pupils;

-
- 18.2 providing educational services including training and support whether educational, medical or pastoral including , for example, referrals for educational assessments or public examination entrance; If your child takes public examinations we will need to share information about them with examination boards. For example, if your child requires extra time in exams. We need to tell all appropriate members of staff if your child is allergic to something or might need extra help with some tasks. We may share your child's academic and, if necessary, their behaviour records with you or their education guardian so you can support their schooling.
 - 18.3 protecting and promoting our interests and objectives - this includes the organisation of alumni associations and events for fundraising purposes;
 - 18.4 administrative, operational and management purposes and to enable the School to meet its legal obligations as an educator. For example, to monitor pupil's performance and progress, ensuring health & safety, administering school property and library services;
 - 18.5 supporting and managing our staff; and
 - 18.6 fulfilling our contractual and other legal obligations including assessing the quality of our services.
19. We are required, by law, to pass certain information about our pupils to the Local Authority and the Department for Education (DfE) and other statutory agencies. We will not give information about our pupils to anyone without your consent unless the law and our policies allow us to do so and we consider it is reasonable and fair to do so in the given circumstances. For example, if your child is from another country we have to make sure that they have the right to study in the UK. We might have to provide their information to UK Visas and Immigration.
20. The School may use Personal Data for other purposes where the legislation allows and where providing an explanation would not be appropriate. For example, this includes sharing Personal Data about pupils with the relevant statutory agencies investigating allegations of misconduct or for the prevention and investigation of crime and the prosecution of offenders. If we hold sensitive medical information about a pupil we will obtain consent regarding which teachers should have access to that information. However, we may need to share sensitive information with staff in the absence of consent, e.g. for safeguarding or welfare issues.
