Friday 21st January 2022

This week we have used our termly topic 'People Who Help Us' and focused on the Police force.

The boys thoroughly enjoyed talking about what they know about the police, why they help us, how they might travel and how to contact them in an emergency. They each created a beautiful fingerprint art piece showing 'cops and robbers' which were very individualised and detailed. The boys particularly enjoyed examining their fingerprints under the magnifying glasses to detect differences between theirs and a friend's!

On Wednesday afternoon we welcomed PCSOs Tim and George. The boys were so excited to meet 'real' policemen and asked so many questions. They were able to look at different pieces of uniform and even had the chance to sit in a police car.

In Maths we focused on symmetry. It didn't take long for the boys to understand the terms 'symmetry' and 'a line of symmetry'. Each of the boys created their own symmetrical butterfly patterns and the reaction when each was revealed was brilliant! They enjoyed using Numicon and peg boards to create their own symmetrical patterns, some of which were exceptionally detailed. Wow!

Friday saw each of the boys participating in the school 'Soccer Aid' challenge for the charity UNICEF. Everyone was so excited and looked great in an array of football shirts. There was a real team spirit as the competition and games took place and a big thank you to the Year 8 sports prefects for all their hard work in organising and running it for us.
